

USB Thumb/Jump Drive Guidelines for ISDTA Competitions:

Size: 1 ½” – 2” in length - 2 GB or more
No mini thumb drives accepted.

We prefer you use a swivel or slide thumb drive, not one with a removable cap.

There must be a hook on the end of the thumb drive and have the capability to attach the ISDTA ID tag provided by ISDTA in the State confirmation mailings.

If there is a key chain attached, PLEASE REMOVE and attach the proper ID tag.

If you cannot attach the ID tag to the thumb drive through the hook at the end, use a different USB thumb drive. We can not tape your ID tag/Competition information to a thumb drive which is too small.
